

## BOOTSTRAPPING EXPRESS APP

GitHub Link-: <https://github.com/yashagg12/sit725-2024-t1-prac3>

Live Link-: <https://yashagg12.github.io/sit725-2024-t1-prac3/>

I have made the page live, instead of adding the screenshot of the output. I have a server.js file which allows to run the code on the local server. So, to make it work on the local server just open the command prompt > get into the directory where you're all the files are there > node server.js

This will host the website on the local server localhost:3000
